## Calling for the Reinstatement of 25 Sacked Traffic Attendants

**Please sign below to show your support - defend the rights of workers**

On 3 April 2009 the 25 sacked Traffic Attendants protested against unacceptable working conditions by deciding to stop work for a half day. NSL Services Group Management (formerly NCP Services) was advised the Traffic Attendants would be reporting for normal duty the next morning. Despite the Company's Management accepting the members had legitimate grievances and agreeing to address these with NIPSA their Management in England overturned this decision. Instead when the members reported for duty on 4 April they were greeted with letters of suspension and calling them to disciplinary hearings later that week. On 18 April letters of dismissal with immediate effect issued to the members.

The matters were not fully investigated and the Company failed to apply its own disciplinary and grievance procedures. Your support is much needed to ensure this Company treats its workers fairly, properly and with dignity. We are asking you to support NIPSA's campaign to have these workers reinstated by signing the petition below.
